**Sean Sarram**  
**President & Founder**  
**VIPRide.com**

The quest began with the founding of Starlite Limousines in 1997, an award-winning and highly-recognized organization dedicated to offering top-quality Corporate Ground Transportation Services. Furthering his own and the firm's professionalism, Sean was elected to the Board of Directors of the Arizona Livery Association. In 2001 his firm was ranked Number One In Arizona! This honor reflected Sean's own commitment to excellence, quality and a drive to offer the undisputed best in ground transportation made easy.

But Sean and his dream had only just begun his quest. In 2002 Sean began what would become the foundation of **VIPRide.com**, a global company linked to the largest firms in the travel business providing the highest quality computer managing service anywhere, any time. Pegasus, highly-sophisticated, proprietary computer software designed by Sean himself that indeed has the biggest and best beating a path to his door. Finally, in 2003, Sean realized the first step of his quest: **VIPRide.com** goes national, offering chauffeured transportation service in all 50 states! Within a year Sean had grown the **VIPRide.com** affiliate network to 600, and today his network, the largest in the country, stands at more than 700 affiliates, all providing the **VIPRide.com** standardized, professional, top-quality service and corporate-managed systems, which make **VIPRide.com** a virtual in-house travel department for companies, large and small, across the nation.

Membership in the NLA, ALA, TLPA, D&B and BBB, Sean believes in making ground transportation made easy, anytime, anyplace. His custom developed Affiliate Management System makes managing and reporting ground transportation a snap, 24 hours a day, seven days a week. And, Sean continues to improve and design new web based applications to expand **VIPRide.com**'s e-business imitative.

Before creating **VIPRide.com** Sean earned a degree in Computer Science from Arizona State University in Tempe, Arizona. He also served as VP R&D and IT Director for major high-tech firms in the manufacturing and healthcare industries.

Most recently Orbitz Online Travel has selected **VIPRide.com** as its provider of choice in an initiative that can allow customers to meet all their travel needs online, including ground transportation via **VIPRide.com**. Other major clients of VIPRide include: Expedia.com, Carlson Wagonlit Travel, Mellon Bank, Fremont Financials, RAND Corporation, etc.

A true Renaissance Man, Sean paints and acquires art from across the globe. And, Sean is currently planning an art museum to house his father's paintings. Sean's father has several hundred pieces of art that he has created. The museum will be a lasting legacy to the family's artwork. "My father is constantly creating things and continually awakens an appreciation of art and finer things within me," Sean says.
